About

Approximately 3 years experience as a Frontend Developer. I've begun to learn the web technologies with HTML and CSS with used them into Asp.Net projects. Then i focused on Javascript to learn manipulate the document or adding dynamic effects on page, animation etc. Then thanks to job experiences, I get a chance to learn professional things of web technologies (mostly with Django) like web servers, responsivity, sockets, version control... etc. And nowadays, I am trying to follow new technologies and keep going to improve myself by learning ReactJs & NodeJs.

Education

Electrical and Electronics, Yeditepe University

2014 - 2019 / Istanbul, Turkey

In 2019 summer, i completed my whole lecture except thesis and compulsory internship. After that because of the economic conditions i had to have dropped the college and kept going to improve myself on software technologies.

Experience

Frontend Developer, Kontrolmatik Technologies

Feb, 2021 - Present/ Istanbul, Turkey

- Coding web platforms which are inform the clients about collected datas by showing them as a charts, graphs, tables etc.. and publishing them on a Linux based operating systems with Nginx web server.
- ApexCharts, ChartJs and GoogleCharts were used for charts, GoogleMaps, OpenstreetMap and MapBox were used for maps on content
- Designed dynamic and browser compatible pages using HTML, CSS, jQuery, and Javascript.
- Built single page applications (SPA), responsive web design, UI using HTML5 grid layouts, CSS3 media queries where its an expression and can be used to either true or false.
- Coding dashboards for users with live data flow. Benefit from web socket by using it switching protocol.
- Using Python's Django for the backend of the web platforms
- Getting the datas from database then splitting, parsing or manipulating it to make them meaningful, and rendering the relevant page with the response of necessary functions, routings or calculations.

Project Member, Akçalı Enerji

Nov, 2019 - Feb, 2020

- It was a remote freelance job where we drew the projects of the buildings and determined the energy classes of them. I was a Project member who drawing the buildings' projects in a Autocad-like drawing application and the application can calculate the energy classes.

Waiter, Ryan's Grill Buffet&Bakery

Jun, 2016 - Sep, 2016

- It was a work and travel program. While i was working as a waiter in a restaurant, i got chance to improve my english skills and earned some money at the same time. It was a fun work experience
